Is home health right for you?

Home health may help if you:

- Have a wound needing skilled assessment, dressing changes, or negative pressure wound therapy
- Were recently in the hospital or a rehab facility
- Are managing diabetes, heart failure, or COPD at home
- Feel unsteady or want help staying safe on your feet
- Take several medications and aren't sure they work together
- Need therapy to rebuild strength, balance, or speech

How home health works

Home health brings skilled nurses, therapists, and other professionals to you through scheduled visits ordered by your physician or other qualified practitioner. Care follows your individualized plan, with each visit focused on helping you recover, manage your health, and stay safely independent at home.

Not sure? Call us. We'll talk it through, and there's no obligation.

WHAT WE DO

Our services

Wound Care & Skilled Nursing

Assessment, ordered treatments, dressing changes, negative pressure wound therapy, IV antibiotic support, catheter changes, ostomy care, tube feeding teaching and management, medication support, and practical education for patients and caregivers.

Physical Therapy

Strength, balance, gait training, and fall prevention

Occupational Therapy

Regaining independence in dressing, bathing, and daily routines

Speech Therapy

Speech, language, cognition, and swallowing

Home Health Aide

Personal care and help with daily activities, under the supervision of your nurse

Lymphedema Care

Support to manage swelling, improve comfort, and maintain mobility

Conditions we commonly support

Heart failure · COPD · diabetes · post surgical recovery · stroke recovery · pain management

Services depend on the provider's order, clinical need, and availability.

HOW IT WORKS

What to expect

1. **Your provider orders home health**
   A physician or other qualified practitioner can refer you, or call us, and we'll help coordinate.
2. **We call to schedule**
   A nurse contacts you to arrange your first visit at a time that suits you.
3. **We build your plan of care**
   Your nurse assesses you at home and develops a plan with your ordering provider.
4. **Care begins and adapts**
   Visits are scheduled around your goals and reviewed with your provider as you progress.

WHO PAYS

For eligible patients, **Original Medicare pays 100% of covered home health services.** Medical equipment and noncovered services may involve costs, and Medicare Advantage benefits vary by plan. We review your coverage and any expected charges before care begins.

Insurance we accept

Original Medicare, Workers' Compensation, and select Medicare Advantage and commercial plans. Participation varies by plan and product. Scan or call to verify current coverage.
